Press Release

Granting India and China port transit will endanger national security

Chief Coordinator and Official Spokesman of *Hizb ut-Tahrir in Bangladesh* Mohiuddin Ahmed issued a press release today condemning the announcement by State Minister for Foreign Affairs Dr Hasan Mahmud of the government's willingness to grant India and China transit rights at Chittagong port. Mohiuddin Ahmed said the people of the country will never accept granting port transit to India and China. He said this announcement within just three days of taking power proves that the government and the imperialists are plotting and planning to make Bangladesh a weak submissive state under imperialist control. Such advance announcement of willingness to give India port transit while she (India) continues her border killings and water aggression is a danger for Bangladesh's national security. The government must realize that due to Bangladesh's strategic location it is the target of foreign powers such as the US, UK, India and China.

Mohiuddin Ahmed
